1. Background & Aims
2. Material & Method / Methodology
3. Results
4. Discussion
5. Conclusion

**Poster Presentations**

A structured abstract (maximum 300 words) under the following subheadings should be given:

1. Background & Aims
2. Material & Method / Methodology
3. Results
4. Discussion
5. Conclusion

### **Award Papers**

1. The presenting author should be an **Indian National** of **age < 45 years**.
2. The presenting author should be a **member of the ANEI** at the time of submission of written paper/abstract. The areas may include but are not restricted to Neurosciences (Neurology & Neurosurgery).
3. The presenting author should submit an abstract of not more than 300 words which is similarly structured as
  - Background & Aims
  - Material & Method / Methodology
  - Results
  - Discussion
  - Conclusion
4. The presenting author should **register for the ANEICON 2024**
5. The work should have been **carried out in India**.
6. If selected for the final evaluation, the author will have to present the paper/poster at the ANEICON 2024.
7. The paper will be **evaluated by anonymous judges** on the merit of the content, the presentation at the conference and the way the presenter responds to the queries from the audience.
8. The **decision of the judges shall be final** and binding and no further evaluation will be entertained.

The details of how to prepare your paper are given below.

**There should not be any identifying details such as name of authors, institution in the body of the article. The name of the Institution can be marked as xxxxxx in the material methods section. Please make sure that the paper fulfils all the requirement above, failing which it is liable to be rejected.**

### ***The Title***

1. The title of the article.
2. Concise titles are easier to read than long, convoluted ones.
3. A running head no more than **40 words**.

### ***Authors***

1. Presenting Authors' name (First, Middle and Last Name) and institutional affiliations.
2. Each author's highest academic degree can be mentioned after the name.
3. The name of the department(s) and institution(s) to which the work should be attributed.
4. Disclaimers, if any.

5. Presenting author. The name, mailing address, telephone and fax numbers, and e-mail address of the presenting author responsible for correspondence about the manuscript are required.
6. Source(s) of support in the form of grants, equipment, drugs, or all of these.

### ***Body of the article***

The text of observational and experimental articles should be divided into sections with the headings

- Background & Aims
- Material & Method / Methodology
- Results
- Discussion
- Conclusion

### ***Material and methods***

The material and methods section should be written very carefully. It should reflect the authenticity of the work that formed the foundation of the manuscript. The details of the study, period of study, whether it was prospective or retrospective, should be mentioned. The source of the subjects, departments, inpatient service or outpatient service that contributed the subjects, source of pathological samples, if drawn from archives etc need to be clearly mentioned. A responsible person from these departments could be one of the authors or they should be acknowledged appropriately. The laboratory methods, source of specific reagents if applicable (for eg. Immunohisto chemical studies) should be provided. The authors should clearly state whether informed consent was taken for each subject, and approval of the Institutional Ethics committee was available. Kindly mention who had carried out the statistical analysis.
